Natalie mentioned that the password can have certain rules to follow so we can put that in the code

There is no need to create Prices and memberships page separately.
So instead of prices we can create a page for programs?
So in home page we can put “programs” instead of “prices”.

Geeyoon suggested to make donation page but I was sure what she meant so if she can explain?

Pages 6,7,8 shows sections of the profile page. I haven't done all the sections, we can just follow the structure and make similarly. Delete account will delete the account and send the user to the home page without login.

When we click on supposing “programs” or “memberships” we can have it highlight to show that it has been selected and we are at that page

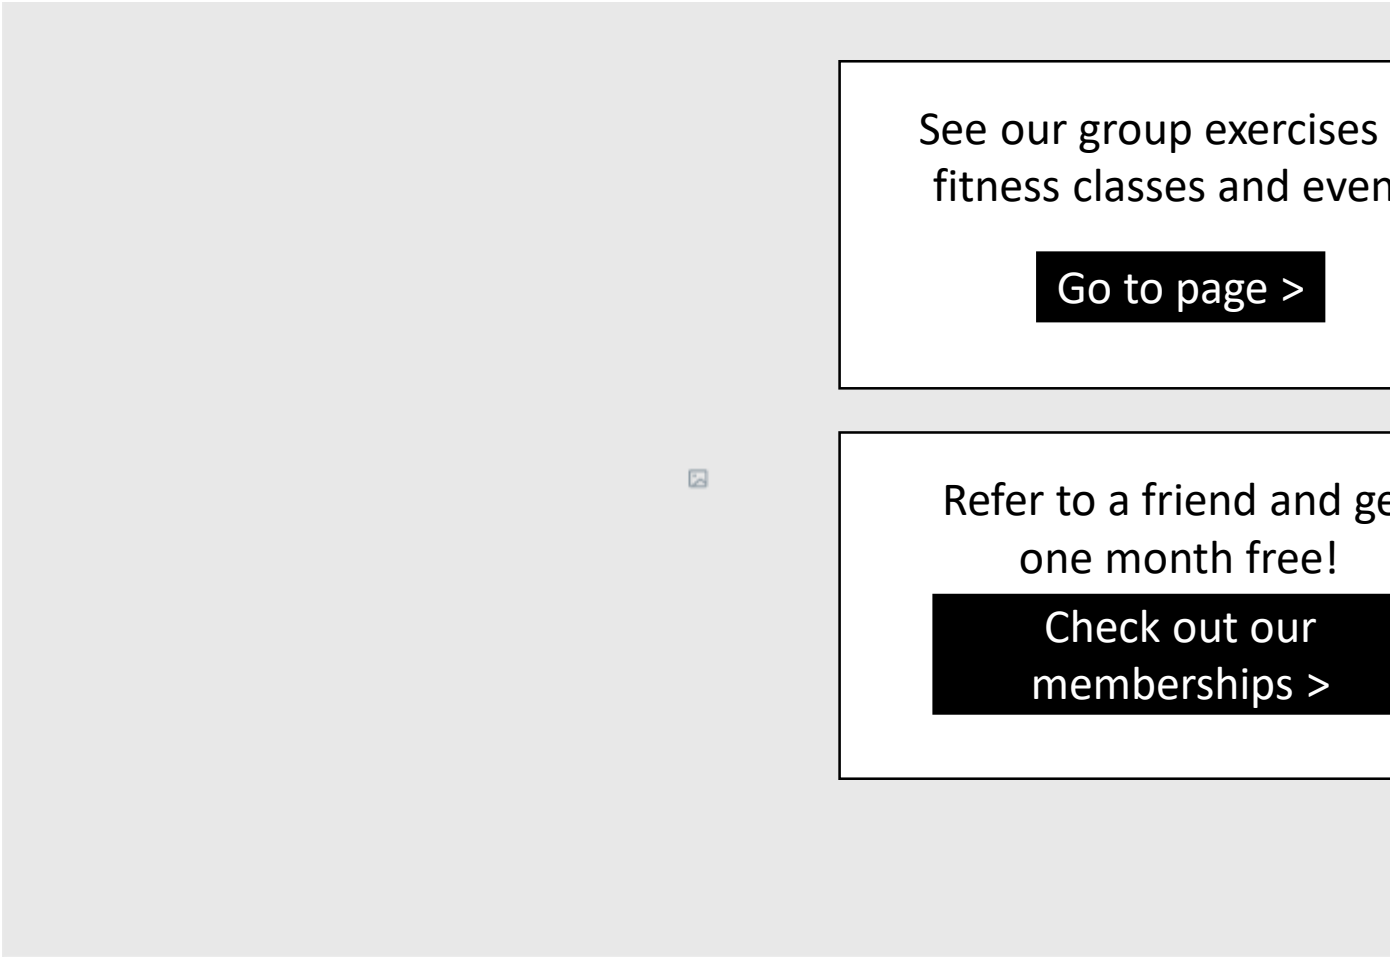

I didn't understand what to put in facilities cause it's a sports center and not a gym... so Ive replaced it with “News and events”.
In this we can base the sports center in leeds and put news about leeds...

About

DONATING

Raising funds for Our Community

- We have found that to make positive change in a person's life, their ENVIRONMENT needs to change over a regular and sustained period. This long-term investment is fundamental to ensure genuine change happens to enable individuals to reach their full potential.

The centre will look to offer:

- Health opportunities
- Fitness opportunities
- Nurturing opportunities
- Educational opportunities
- A gym facility
- Outdoor space for individual and team sports and activities
- Indoor space for crafts, cookery & healthy eating
